

Vernon E. Faulconer, Inc.

Lease Operator – Oil & Gas – Woodward, Oklahoma

Vernon E. Faulconer Inc., an Independent Oil & Gas company with over 35 years in the business, has an opportunity for an experienced, detail-oriented Lease Operator located in Woodward, Oklahoma. Position performs a key role in the daily inspection, operational monitoring, and reporting on assigned wells and facilities.

Duties and Responsibilities:

- Performs daily inspections of assigned oil and gas leases.
- Gauges and reports daily production of oil and water in storage tanks.
- Reads gas meters, calculates, and reports daily produced gas volumes.
- Monitors and records daily plunger runs on all non-automated wells.
- Inspects plungers, sample catchers and performs gauge ring tests on a monthly basis on all plunger lift wells.
- Reads, records and reports tubing and casing pressures on assigned wells.
- Inspects pipelines, valves and flanges to detect malfunctions.
- Operates intermitter controllers, pumping units, natural gas compressors, refrigeration plants, JT plants, dehydrators, generators, two-way radios and computers.
- Performs daily readings and reporting on assigned compressors.
- Makes minor repairs to control valves and pilots.
- Reports lease deficiencies and other problems to the supervisor.
- Oversees the operation artificial lift equipment, such as down hole pumps, plunger-lift, and pumping units.
- Performs mechanical trouble shooting on equipment as required.
- Inspects each location visited and repairs or makes recommendations to management for the repair.
- Makes and manages project lists for each lease as needed.
- Proficient in the start-up and operation of each lease and its associated surface equipment.
- Perform rotational schedule that may require duties be performed on the weekend.
- Reports to the respective field Production Foreman.

Required Qualifications:

- Strong mechanical aptitude with good working knowledge of all oil and gas surface production equipment.
- General knowledge of compressor operations and well automation.
- Good communication skills to interact effectively with members of small and large teams.
- Ability to climb vessel ladders and work at heights up to 25 feet.
- Experience with Microsoft Office and E-mail.
- General knowledge and skills to operate artificial lift equipment, such as down hole pumps, programmable controllers, and pumping units.
- Minimum of a High School Diploma or equivalent.
- Must have current driver license with good driving record.
- To be considered for this position, you must be a US Citizen or already have the right to work in the United States of America for any employer without sponsorship.
